Enhanced Brightness are subject to LED & driver IC selection - to be confirmed at the point of order.  
 Peak (max.) input power figures are an approximation for guidance purposes only and should not be relied upon. Figures can change subject to LED type and brightness.  
 Average figures are a typical assumption based on 30% of the peak value and may vary according to usage and media content shown.  
 All specifications are correct at time of print, however they are liable to change and should be confirmed at point of order. E&OE.
